

Title

Dewi Buildings

Client

Trinity St David's University

Location

Carmarthenshire

Project

This new university (formed from the merging of University of Wales, Lampeter and Trinity University College, Carmarthen), required planning applications for its new entrance, IT and refectory facilities, and a corporate signage strategy.

Our input

Asbri promoted the submission of two planning applications, coordinated the project's development team and prepared two Design and Access Statements. We monitored the applications to determination by the local planning authority, which were successful on two counts.
