

Title

Elfed Avenue

Client

Newydd Housing Association

Location

Vale of Glamorgan, South Wales

Project

This development of four Code for Sustainable Homes (Level 5) homes is one of a pilot of 27 schemes across Wales being funded by the Welsh Assembly Government, to ascertain the cost of constructing to the higher levels of the Code and to Zero Carbon. The pilot programme is an integral part of Ministerial thinking on how quickly to push the standards for housing towards Zero Carbon in Wales.

Our input

Asbri Planning recently attained planning permission at Elfed Avenue in the Vale of Glamorgan for this development of CfSH, affordable eco-dwellings at Informal Hearing on behalf of Newydd Housing Association. The appeal successfully challenged a number of issues relating to character and residential amenity.
