

Title

IBERS Penglais

Client

Aberystwyth University

Location

Aberystwyth

Project

This major project for Aberystwyth University called for two large mixed use schemes in a draft deposit plan via the Ceredigion Local Development Plan (LDP). These were Llanbadarn Campus (employment, education and housing) and Penglais Farm (student village, park and ride and employment uses).

Our input

Asbri promoted two large strategic sites for development via the LDP. We negotiated with the Local Planning Authority and co-ordinated the technical supporting team, as well as preparing indicative land use master plans and advising the client on LDP process.
