

Title

Trane Farm

Client

New House Properties

Location

Tonyrefail, South Wales

Project

Land at Trane Farm, Tonyrefail, was allocated for residential development in the 'deposit' Rhondda Cynon Taf, Local Development Plan (LDP). There has been a need to continue to promote the allocation through the LDP process.

Our input

Asbri has been instructed to promote this allocation by way of coordinating the preparation of technical evidence at deposit stage, reviewing housing need and supply in the LDP and to attend the Examination in Public to present oral evidence supporting the allocation. Asbri coordinated the preparation of a Masterplan for the site and subsequent planning application promotion is anticipated.
