

Title

Wellington Street

Client

Taff Housing Association

Location

Cardiff, South Wales

Project

This prominent brownfield site – a former petrol station in Canton, Cardiff – had remained vacant for a number of years and was in urgent need of redevelopment. CFW Architects prepared a contemporary design for the site which proposed 3-storey development in a largely 2-storey area, and together with the developer required assistance in obtaining planning permission for the project.

Our input

Following detailed negotiations with various Council Departments, Asbri coordinated the granting of planning permission in Spring, 2009. Asbri Planning was then engaged to discharge all conditions prior to commencement of development. The development of ten terraced residential dwellings was completed in March 2010.
