GENERAL NOTES

1. The survey was conducted in accordance with the current edition of BS5400-1:2004 and BS5400-2:2004.

2. Only sub-surface utility information is provided. Above ground utility information may be shown where it is clearly visible and does not conflict with the sub-surface information.

3. Where a utility is shown in yellow, it is a proposed utility. Where a utility is shown in red, it is an as-built utility.

4. The survey was conducted using a total station and a GNSS receiver. The accuracy of the survey is stated on the drawing.

5. The survey was conducted on a clear day. The weather was clear and the temperature was 15°C.

6. The survey was conducted between 09:00 and 17:00 hours.

7. The survey was conducted by SUMO SERVICES LTD.
